Hello Everyone,

The Show-n-Tell surprised me this year. At first I didn’t have any idea how many members would come through, and then you really came through. I thought it would be a short night, but you came up with some really informational items and ideas. THANKS to everyone that participated.

It was brought to my attention that one of our old members won the Giveaway at Woodcraft, the weekend after our meeting. Robert Jodat, (Ro), an old member, didn’t renew this year because of work. He works a split second third shift and was never able to attend the meetings. Ro saw the giveaway when he came to our meeting. (Due to an operation, he has some time off.) He came back on Friday, entered the contest and WON. I’m glad it went to someone I know. Congrats Ro!

Work safe and share your hobby!

Ronald Reuter

Reflections
July Show and Tell

I am always amazed at the creativity and problem solving talent in our Guild. Those who brought show and tell this year continued in the tradition of sharing their talents. I hope I can capture the essence of what they shared and maybe with the pictures taken by Dave Drickhamer you can all recall what they shared.

First up was Lyle Morrison showed many of his hand carved items. He showed a free form carving made from an Ash tree; he showed a digging tool, and a knife blade with a black walnut handle. He showed a display board for his knife and said it also hold a cane. The holding device was made from pipe holders that can be purchased at Menards; they are used mainly by plumbers and electricians. Last he showed how the leather thong on a walking stick can double as a holder by looping it through a bag. Hands free walking with his walking stick.

Second up was Jerry Tackes. Jerry said he brought 5% of all the jigs he has made over the years. Mostly he made them so he could get consistent results on his woodworking. He made some of his jigs in different sizes also. He showed some hold down clamps that the made from plans in Wood Magazine; he made them in various sizes. He showed a tool holder that held various tools and was able to sit on the fence of the table saw so tools were easily accessible.

Jerry also showed a dial indicator the fits in the fence and allows him to accurately saw his wood. He showed various tools to make his work at the saw

### Rockler Class Schedule - Tuition assessed

**Make a Cheese Plane with Gary Datka, Aug 13, 12pm - 2pm**
**Bowl Turning with Gary Datka, Aug 14, 11am - 3:30pm**
**Turn a Wooden Pen with Gary Datka, Aug 24, Time: 5pm - 6:30pm**
**Turn a Bowl with Gary Datka, Aug 27, Time: 9:30am - 1:30pm**

### Rockler Demonstrations

- **8/6/2016 Wood Turning Techniques - 11AM**
- **8/13/2016 Drawer Building - 11AM**
- **8/20/2016 Triton Work Center - 11AM**
- **8/27/2016 Sign Making - 11AM**

*For further details, call Rockler: 414-774-1882. Location: 1725 S 108th St, West Allis*

### Woodcraft Class Schedule - Tuition assessed

- **Raised Panel Doors - Start to Finish, Instructor: Dan McClanahan, Mon, 08 & 15, 6 PM - 9 PM**
- **Veneered top Jewelry Box, with Chris Kraemer, Tues, Aug 09 & 16, 6 PM - 9 PM**
- **Turn a Lever Action Pen, with Melanie Wegner, Thur, Aug 11, 6 PM - 9 PM**
- **Woodworking For Women, Dan McClanahan, Wed, Aug 17, 5 PM - 9 PM**
- **HVLP Basics, with Chris Kraemer, Tues, Aug 23, 6 PM - 9 PM**
- **Flat, Square, Straight - Jointer- Planer-Table Saw, with Dan McClanahan, Wed, Aug 24, 6 PM - 9 PM**
- **Wood Finishing, with Kevin Seigworth, Sat, Aug 27, 9:30 AM - 3:30 PM**
- **Basic Cabinet Construction, with Chris Kraemer, Tues, Aug 30, thru Oct 18, 6 PM - 9 PM**

### Woodcraft Demos

- **Domino Demo, Sat, Aug 06, 1 PM - 2:30 PM**
- **HAWS visit, Sat, Aug 13, 11 AM - 2 PM**
- **Norton Water Stone Demo, Sat, Aug 27, 1 PM**

*For further details, call Woodcraft: 262-765-6770. Woodcraft is located at 14115 W. Greenfield Ave., New Berlin*

**Woodline USA** (800) 472-6950.
safer, a ginger he made, a feather board, jigs he made to push wood, and he showed a piece of wood with a magnet imbedded in it. He showed a piece that was spring loaded, that when used with wood between it, would allow you to draw lines on 3 sides. Finally, he showed a slide off a disc sander that let you keep within 2 to 3 thousandths of the sandpaper. He made it with angles from 45 degrees to 22 ½ degrees. This all Jerry brought in one bag. Amazing!

Next up Mike Mitten showed a caliper he made for a table saw blade.

Next Jim Schlarb showed his bag of tools, jigs, and helpful hints. Jim showed a feather board he made from oak. He made it in 2 sizes and said it is the best you could ever have. He next showed a turning tool he made for turning burls. He said it could be used on whole width or just a corner. He showed how he made a block for sanding molding by making a mold and then poring bondo in, he glues on a handle and sandpaper after it is set and has a perfect piece to sand molding.

Jim also showed a tool he made by putting a hacksaw blade in a piece of wood. The teeth go in 2 ways and are just a bit taller than the block of wood. He said it is perfect for sanding down rough wood. He showed a couple ways you could attach sandpaper to a round surface to use for sanding a concave surface. On one he used a hinge to hold it in, on another he used staples. He talked about how we all lose one glove. Jim said we should turn the leftover one inside out to fit the other hand rather than throwing it away. Jim said a trick when using a joiner to fit 2 pieces of wood together is to put one piece through one way and the second piece the other way and they will fit together perfectly. Jim said a trick he uses when gluing 2 pieces of wood together is to put glue on both surfaces of the pieces that will be fit together, then rub them together for a little bit and it warms the glue and it will stick together. You can then leave it set to dry.

Next Dick Garby showed a truck model he made. It sure looked nice.

Jay Pilling showed an ash bowl on which he did a raw edge turning. He also showed several salad bowl forks and a butter/jam knife he made out of maple. He used a mineral oil finish on them so they would be food safe.

Gary Shadley showed a cupola he made for the top of a house. It has actual curved copper on the outside. He made a jig to roll the corners of the copper. The cupola is made of PVC wood, it is glued together with a special glue that set up in 5 minutes. He also showed a roof he make for a butterfly house.

Vern Eilers show a stool/women’s dressing table bench he made out of white oak. He steam bent the seat using a jig he made out of PVC pipe. He used a scraper to do the pattern on the seat. The rest of the stool is turned. It was very nice Vern.

Kevin Seigworth showed a bowl he turned from a piece of cherry. The cherry was rotted in the middle and Kevin worked with the piece and was able to get a beautiful raw edge bowl from it. Nice job Kevin.

It was informative and very interesting to see the variety of Show and Tell. Thanks to all the presenters.

**July Raffle & Door Prize Winners**

Lucky raffle winners in July were Jim Murray, Jerry Tackes, Rich Henderson, Bruce Everard, Norm Lange, and Andy Wagner (2).

Winners of the door prizes were Dave Barber, Bob Hillman, Randy Jacques, Leila Frink and Larry Teufel.

Congratulations to all the winners.

The Toy Making group will have a final planning meeting on August 9th at 1 PM. Contact Norm Lange for more information.

The Toy Makers will begin on the 12th of September to make toys and will be meeting weekly on Mondays at Woodcraft. Consider joining this group. It is a great way to get to know others in the guild. I imagine many friendships began in this group.

Attendees: Ron Reuter, Greg Waldo, Jay Pilling, Don Doss, Leila Crandall-Frink, Kevin Seigworth, Andy Wagner, Rich Frink, Dave Steingart, Jim Schlarb, and Ken Ochs

Treasury Balance: $6,028.18

Membership: Paid 2016 membership is at 115 members.

Secretary: Forty-nine (49) members/guests attended the July meeting

Other: The August Board meeting will be at Ron’s house. Dave Steingart asked if we should continue the photo gallery section on the website and this will be discussed at the August Board meeting. Woodworker of the Year will be chosen by the previous three winners instead of by popular vote of the membership. No programs have yet been arranged for 2017, but several ideas were discussed. No one has volunteered for Nominating Committee Chairperson.

A reminder that all items for publication in the Ripsaw should be sent to both Leila Crandall-Frink (leila.frink@gmail.com) and Don Doss (FourPartHarmony@att.net).

Respectfully Submitted, Ken Ochs

Woodworkers Gym

The Woodworker’s Gym is a public-access woodworking shop owned and managed by Guild member Dan Meissner. He is looking to tap into the vast experience of Guild members for part-time shop monitors. Please find some time to stop by, tour the facility and chat.

Special rate for Guild members: get a 10% discount on memberships and classes! Call 262-373-9411 for more information.

The Woodworker’s Gym is located at 3220 N. 126th St. in Brookfield, just a half-mile west of I-41/US-45 on Burleigh Rd., open Tuesday-Sunday beginning at 11 a.m.

Notice: For sale items now on WWG Website.

There is a new section on our WWG Website, updated regularly by our webmaster, Dave Steingart. Check it out at http://wiscwoodworkersguild.org/ForSaleETC.html. Although the listings are screened for interest to our members, WWG is not responsible for the accuracy of the listings or for the quality of the products. Caveat emptor - ìLet the buyer bewareî.

Thank you Dave.
